

Modification of OBD MAINLINE

When receiving the accessories, please check you OBD MAINLINE and disassemble it ,connecting the DB9 to it, shown as Figure 1

Figure 1

The corresponding relationship between CODE BOX and DB9 :

DB25	10	11	12	17	18
DB9	3	4	2	8	1,5,6,9

When finished, the new OBD MAINLINE shows as Figure 2 below. (please make a small hole whose diameter is 4mm)

Figure 2

Please disassemble the transponder adapter if you bought it before December 19th,2011, connect wires as Figure 3

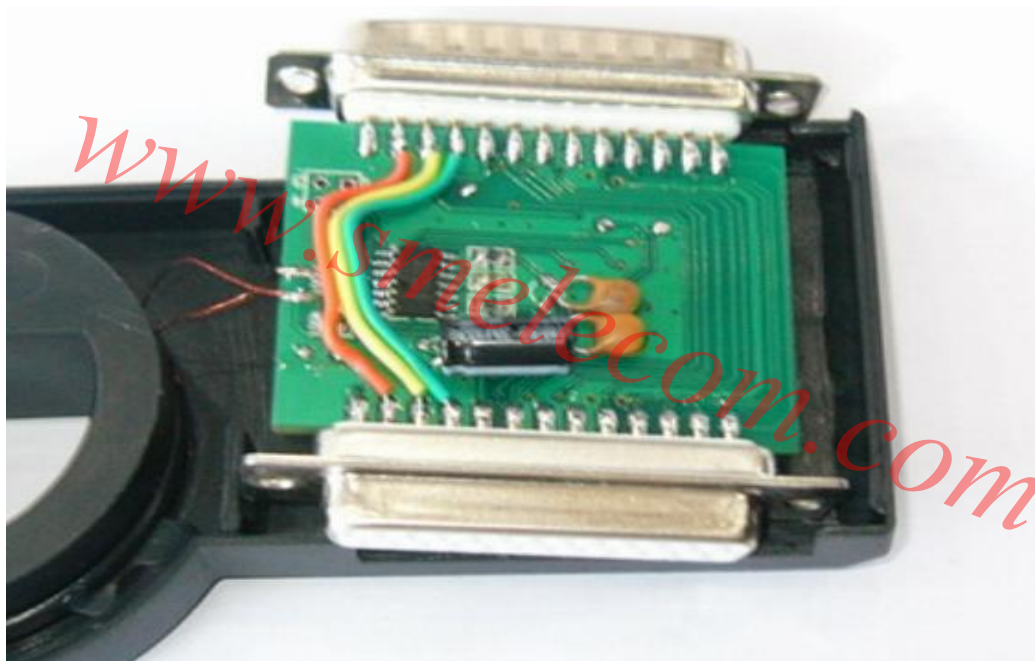

Figure 3

After finished ,please assemble it well.
